### Examination and Certification

ICBio has introduced the online exam pattern in which a student can give his/her exam from a place and at the time of his/ her convenience. Every Paper will have 100 questions each and the time allotted is 1 hour. Each question carries 1 mark and there is no negative marking. A maximum 35 marks is required for passing the exam. Result can be viewed and printed out immediately after the exam by clicking on 'Show Results'.

The student would be awarded the marks cards and certificate from the institute.

**Market Potential: Clinical Research**

Clinical Research sector is booming day by day and in this perspective of globalization the demand of Clinical Research Professional has increased tremendously. A profession in Clinical Research is among the top ten millennium professions according to a recent US survey. The size of the Clinical Research market in India is growing at 40% and is estimated to grow to around US\$4.5 billion by 2015. According to a Survey the country would needs around 2, 00,000 professionals in the Clinical Research industry in the coming years. In order to cater to the need, a **Diploma Certificate Course** is a skill development program which is primarily targeted towards executing all the job functions of a Contract/Clinical Research Organization.

**Career prospects**

**Placement Cell**

The Placement Cell at ICBio serves as a bridge between the students and the Corporate to help the students find their dream careers. Apart from bringing a varied list of Recruiters to the campus, the Placement Cell also organizes talks, internship opportunities and workshops for the collective student body. As an added feature skill building workshops such as workshops for Personal Interviews and Group Discussions and Personality Development are conducted to help the students enhance their chances for a smooth transition from a student to an executive. The placement cell has been successful in bringing the best of organizations to the campus head hunting and is a fact of pride for ICBio. To provide world class industry and practical exposure to students, ICBio has collaborated with the companies like Quintiles, Accenture, Indegene, etc to place their students as interns during their course for duration of 3 to 6 months with paid stipend.
